

Instructions for Patients – Telemedicine Appointment

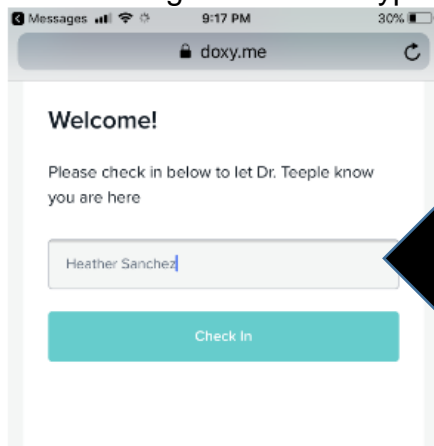

1. The patient will receive a text or email from our practice/physician regarding their upcoming Telemedicine appointment:

Patient will click on the blue hyperlink.

The blue hyperlink in the text message will need to be selected.

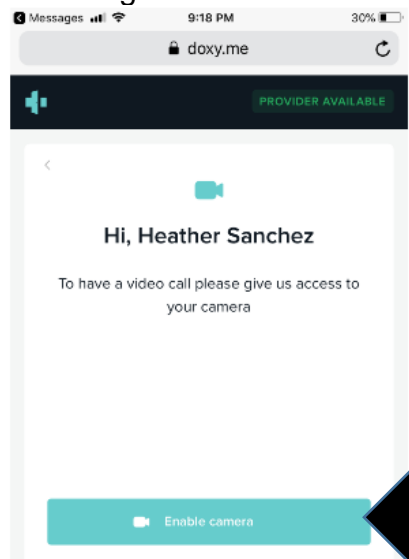

2. After clicking on the blue hyperlink, the patient's next screen that will appear:

Patient will enter name.

The patient will then enter their name in the open section and click "Check-In."

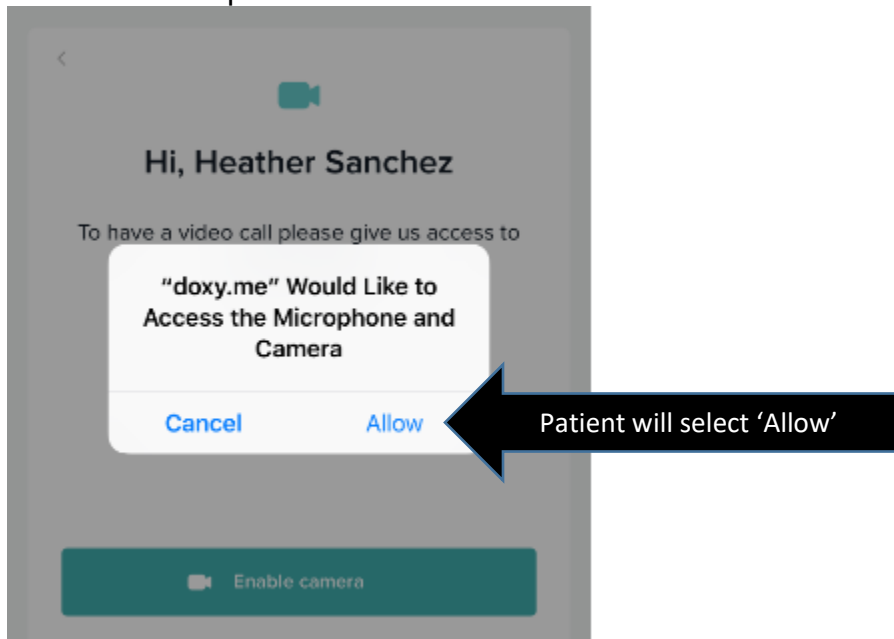

3. Following the Check-In screen this will display:

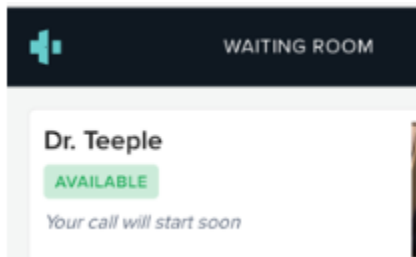

Patient will click "Enable camera."

4. As soon as the patient “Enables camera” the device will have a pop-up:

5. Once the “Allow” is chosen the patient will then see this display:

This indicates that they are in the correct place and the Telemedicine visit will begin soon.

Please be available 20 minutes prior to your scheduled appointment time and 20 minutes after. It is important that you are in a secure place in which you are willing to discuss medical issues/problems with your physician.
